## TIRE & WHEEL Repair/Replacement

With Tire & Wheel protection, if your tire and/or wheel becomes unrepairable due to damage caused by a road hazard, we'll cover the repairs or replacement, as well as mounting and balancing. We'll even take care of cosmetic damage repairs or reconditioning, such as minor curb rash or flaking paint.

### TIRE REPLACEMENT:

We'll provide reimbursement for reasonable costs you incur to repair or replace your tire(s) if punctured or otherwise damaged due to a road hazard. Replacement will be made with a tire of like kind, quality and cost to the original tire. Coverage is valid through the tread life of a tire (3/32" or less is excluded).

### WHEELS (RIMS):

We'll provide reimbursement for reasonable costs you incur to repair or replace your wheel(s) if rendered unserviceable due to a road hazard. Damaged wheel may be replaced with a remanufactured wheel of like kind and quality (Covered only when the damaged wheel cannot be repaired).

### MOUNTING AND BALANCING:

We'll provide reimbursement for reasonable costs you incur for mounting, balancing, valve stems, and tire disposal for any tire replaced under this service contract. (Shop supplies, tire pressure monitoring system (TPMS) components and unspecified charges are excluded).

### COSMETIC WHEEL REPAIR:

We'll repair or recondition to the fullest extent possible any cosmetic damaged portion of an alloy wheel, such as minor curb rash or flaking paint, which can be repaired using manufacturer alloy wheel repair techniques. In the event the wheel is not repairable it will be replaced. (Cosmetic alloy wheel repair/replacement maximum is \$600).

## KEY/REMOTE Replacement

Your key/remote is basically a small computer that communicates with your vehicle. And, while this technology provides heightened security and theft protection, it also makes your fob costly to replace.

### KEY/REMOTE REPLACEMENT:

If your key/remote is lost, stolen or becomes inoperable, we'll pay up to \$800 per year towards a replacement key/remote\*. If you're within a 25 mile radius of the originating dealer, you'll need to contact them first to determine if they can provide a replacement key/remote and programming. If they cannot, prior approval is needed before replacing the key/remote at any appropriate franchised dealer. (Non-working keys/remote must be available for inspection).

\*NOTE: For the safety and security of the vehicle owner, all keys and/or remotes that are reported lost, stolen or destroyed must be reprogrammed by the dealer prior to replacement.

## PAINTLESS DENT Repair (PDR)

PDR, a process developed by auto manufacturing production teams, uses specialized hand tools to permanently remove minor dents (dents or creases that are up to 2" in length/diameter) without affecting the existing paint finish!

### PAINTLESS DENT REPAIR:

We'll cover the cost to repair dents on all exterior painted sheet metal body panels of your vehicle if they can be repaired through existing PDR techniques. (Does not include services that involve the replacement of vehicle body panels or sanding, bonding or repainting).

This is a general outline of coverage for marketing purposes only and does not constitute your contract. Actual terms and conditions may vary by state. See your contract for complete provisions, exclusions and Limits of Liability.
